The High School Leads Our Students

Hagerstown and its outlying communities give of themselves to help each and every student. They serve a dual purpose to the pupils of the school corporation. While it serves the very important academic needs it also provides the opportunity for those who wish to enter life and reap its opportunities.

Gateway to the Future with Student Life

The school life of a student starts Monday morning when he arrives at school and ends with the after-game dance Friday night. Between these times, however, many things happen which are enriching as well as exciting to the student.

If we were to follow him through a typical week we would see the hectic schedule he pursues in the task of gaining an education. The assignments to be in on time, the meetings of the activities and the welcome final bell of each day.

In addition to the academic life and activities of the day, the average student continues after school with a multitude of extracurricular events.

Floats

Floats were entered from all the upper four high school grades and the F.F.A. - F.H.A. and the Art Club in the 1963 Homecoming. Copping highest honors is the Sophomore Class, with the second and third place ribbons going to the Art Club and Junior Class respectively.

Spark

Spark was added to Homecoming by floats entered in the parade. The H.H.S. Homecoming of 1963 was the beginning of the parade of floats, Queen candidates and the school band. Ribbons were awarded to the three top floats and the Queen, Miss Marcia Bane was crowned by the three football captains, Marc Marlatt, Randy Gwin, and Dan Reece.

Homecoming

Homecoming festivities, sponsored by the 1964 yearbook staff, were a new and thrilling experience for all.

Queens Reign Over Festive Events

The charming Homecoming and J.C. Track Relay Queens and their Courts added an air of royalty to the events over which they reigned. The Homecoming Queen and her Court are Queen Marcia Bane, Betsy Johnson, Cheryl Clevenger, and Jane Welliver. The J.C. Relay Court is composed of Sheila Miller, Judy Johnson, Debbie Bond, and Queen Cheryl Clevenger.

Cinderella's Ball Enchanted All

The evening of Cinderella's Ball certainly was a magical one not soon to be forgotten by anyone who attended. The music of the band and the soft colors of the theme set an atmosphere which undoubtedly provided many happy memories.

Queen Connie and King Henry I were crowned after a grand march led by the king and queen candidates around the royal coach.

The night of the ball isn't the only thing about the Prom which will be remembered. Those who helped assemble the decorations won't soon forget the nights of working and the days of sleeping in class.

Seniors Sponsor Hobo Day Carnival

The 1964 Senior Carnival was a big success as shown by the crowded gymnasium.

The Seniors initiated the newest event of H.H.S. this year, Hobo Day. With all students and faculty allowed to dress in a haphazard way for a 5c fee, the school resembled "The Jungle" for Valentine's day. Not only did Hobo Day give everyone a chance to relax but was also good advertisement for the Carnival and Chili Supper that night. The Carnival, and annual Senior production, proved fun for everyone.

The tables are turned when Sam Port arrests Mr. Stone.

Gateway to the Future With Classes

The true gateway to the future is academics. The person with a well-rounded education has access to portals of endless satisfaction in the modern world. H.H.S. attempts to offer its students basic instruction with opportunities to specialize in fields of particular interest. In this way, students are prepared for higher education and future professions and vocations. In the following pages, we will show you how H.H.S. prepares its students to enter the challenging Gateway to the Future.

We Learn to Value the Study of English

The importance of training in our English language is becoming increasingly obvious to students as they prepare for the future. Ability to express oneself in his own language is essential for a satisfying life.

In addition to the usual tutoring in word study and grammar thorough instruction in literature is offered. In his four high school years a student may progress from the required general, world, and American literature courses to the elective advanced study of English literature.

Linda Wieseke and Rick Strahota receive training from Mrs. Hagen in the use of that valuable English aid, the dictionary.

Ronnie Williams, with his usual self-confidence, marches valiantly, under the leadership of Miss Andis, into the battle with English literature.

Vocabulary studies seem to be a pleasant affair to all class levels as represented by Hank Fallis, Marilyn Merchanthouse, Lee Strahota, and Danny Reece.

Foreign Languages Broaden Horizons

Bruce Montgomery, going through his paces as all Latin students must do, declines a noun.

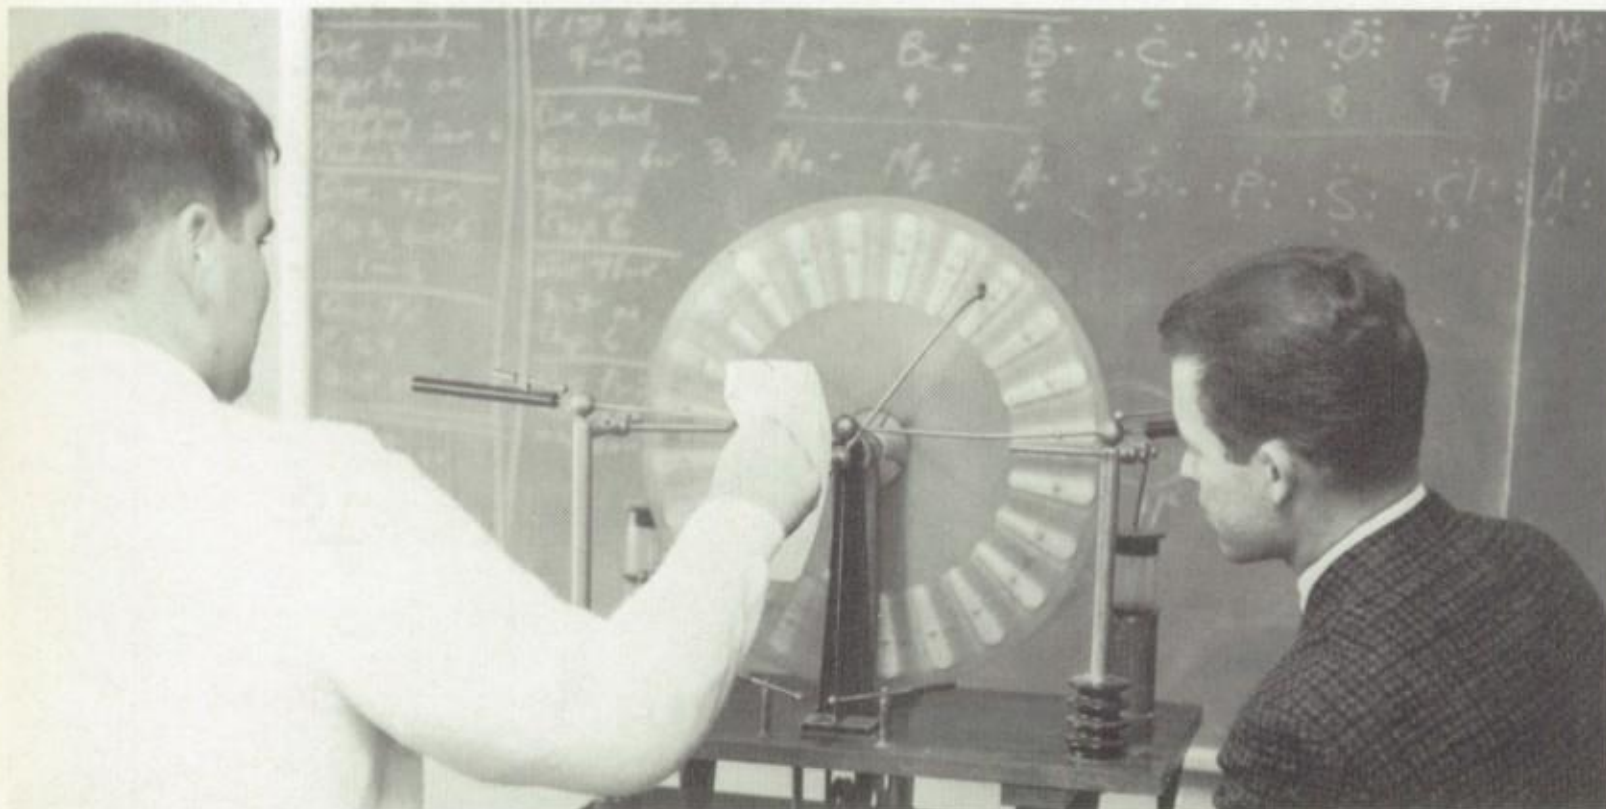

Mrs. McConaha leads the class in pattern practices, oral exercises familiar to all Spanish I students.

The history of language and the knowledge of a foreign language are invaluable for a complete education. In Latin I and Latin II, students may acquire a useful acquaintance with derivations, vocabulary, Latin grammar, mythology, and the Classics. The three year Spanish course is offered to the student in which he may become skilled in speaking, reading, and writing that modern foreign language.

Mrs. Millikan illustrates the association of a written word and an object in Latin I.

Physical Sciences Intrigue Students

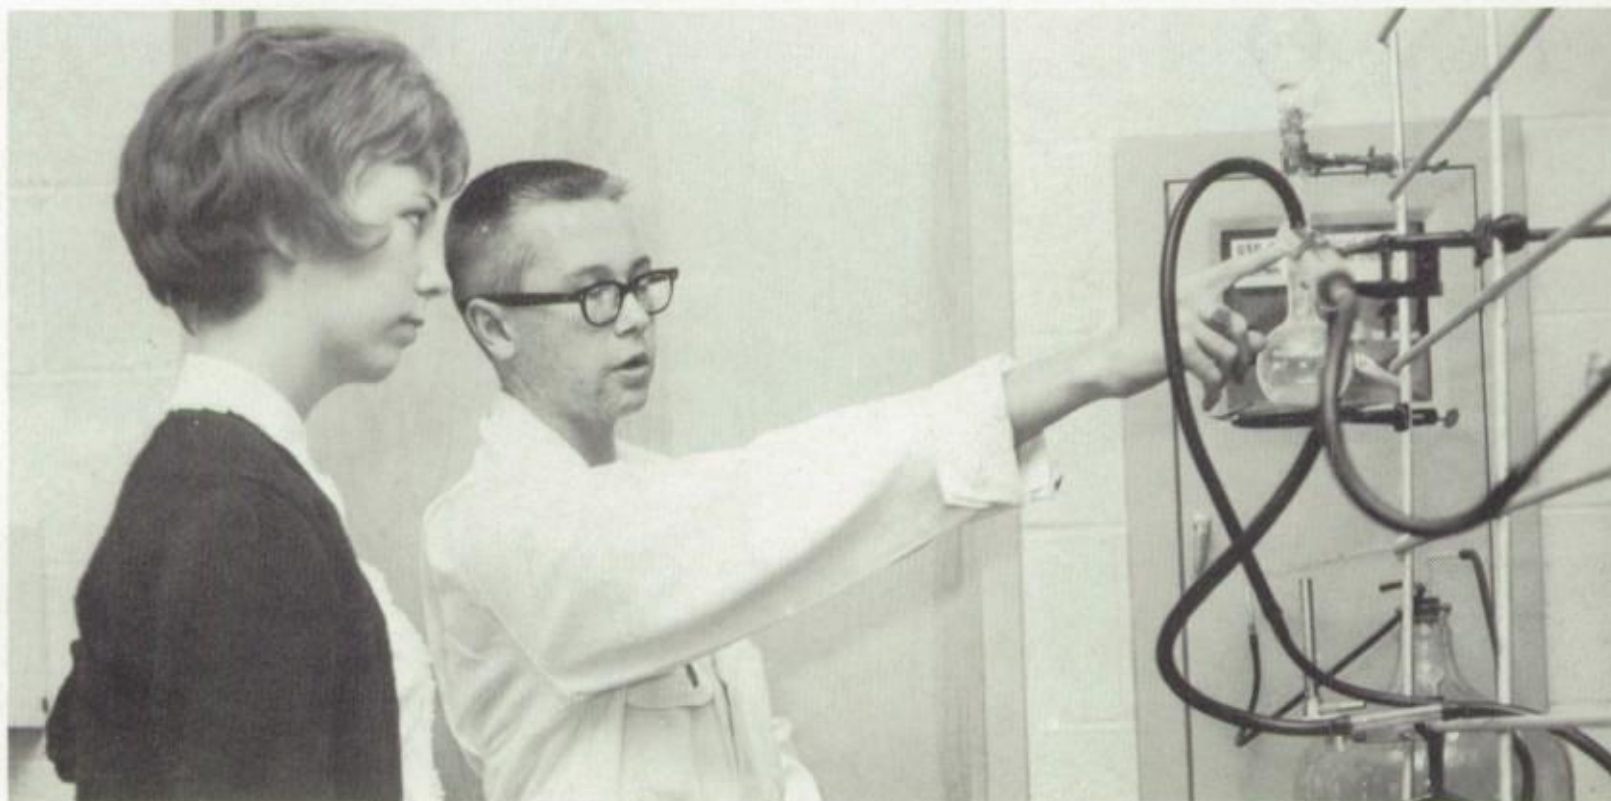

Mr. Nachtigall explains the production of static electricity to Ronnie Williams.

The physical sciences, chemistry and physics, are offered to H.H.S. junior and senior students. Chemistry is a basic study of the formulation, composition, and properties of elements and compounds. Physics offers knowledge of matter and energy. This course involves

research in weights, measures, radioactivity, and nuclear energy. A major part of the course investigates the mechanics of liquids, gases, solids, force, heat, sound, and other physical phenomenon. These two courses are under the instruction of Mr. Nachtigall.

Jerry Carlson explains the technical operations of a chemical still to Betsy Johnson.

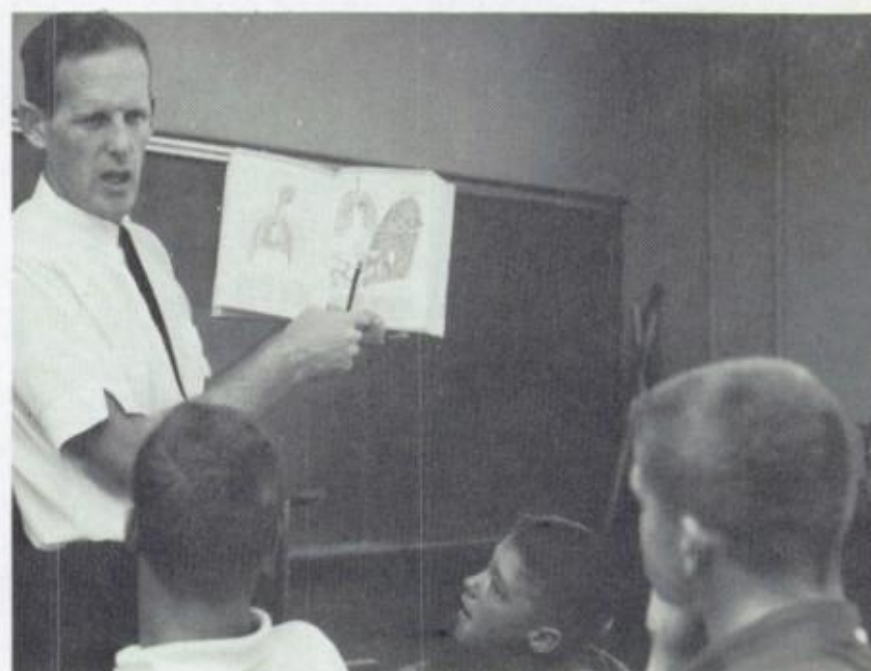

Advanced Biology's well known fruit fly project receives the avid attention of Suzy Hagen and Marvin Cole.

The Natural Sciences Examine Life

Biology I teaches the student the basic biological principles and classifications of the plant and animal kingdoms. Advanced Biology, preparation for college-bound students, offers instruction in progressive biological and premedical fields. Various divisions included in this course are cat and bird anatomy, taxidermy, and conservation.

The study of life would not be complete without a course concerning the health and safety of the human body. This course attempts to give a knowledge of body functions and health measures.

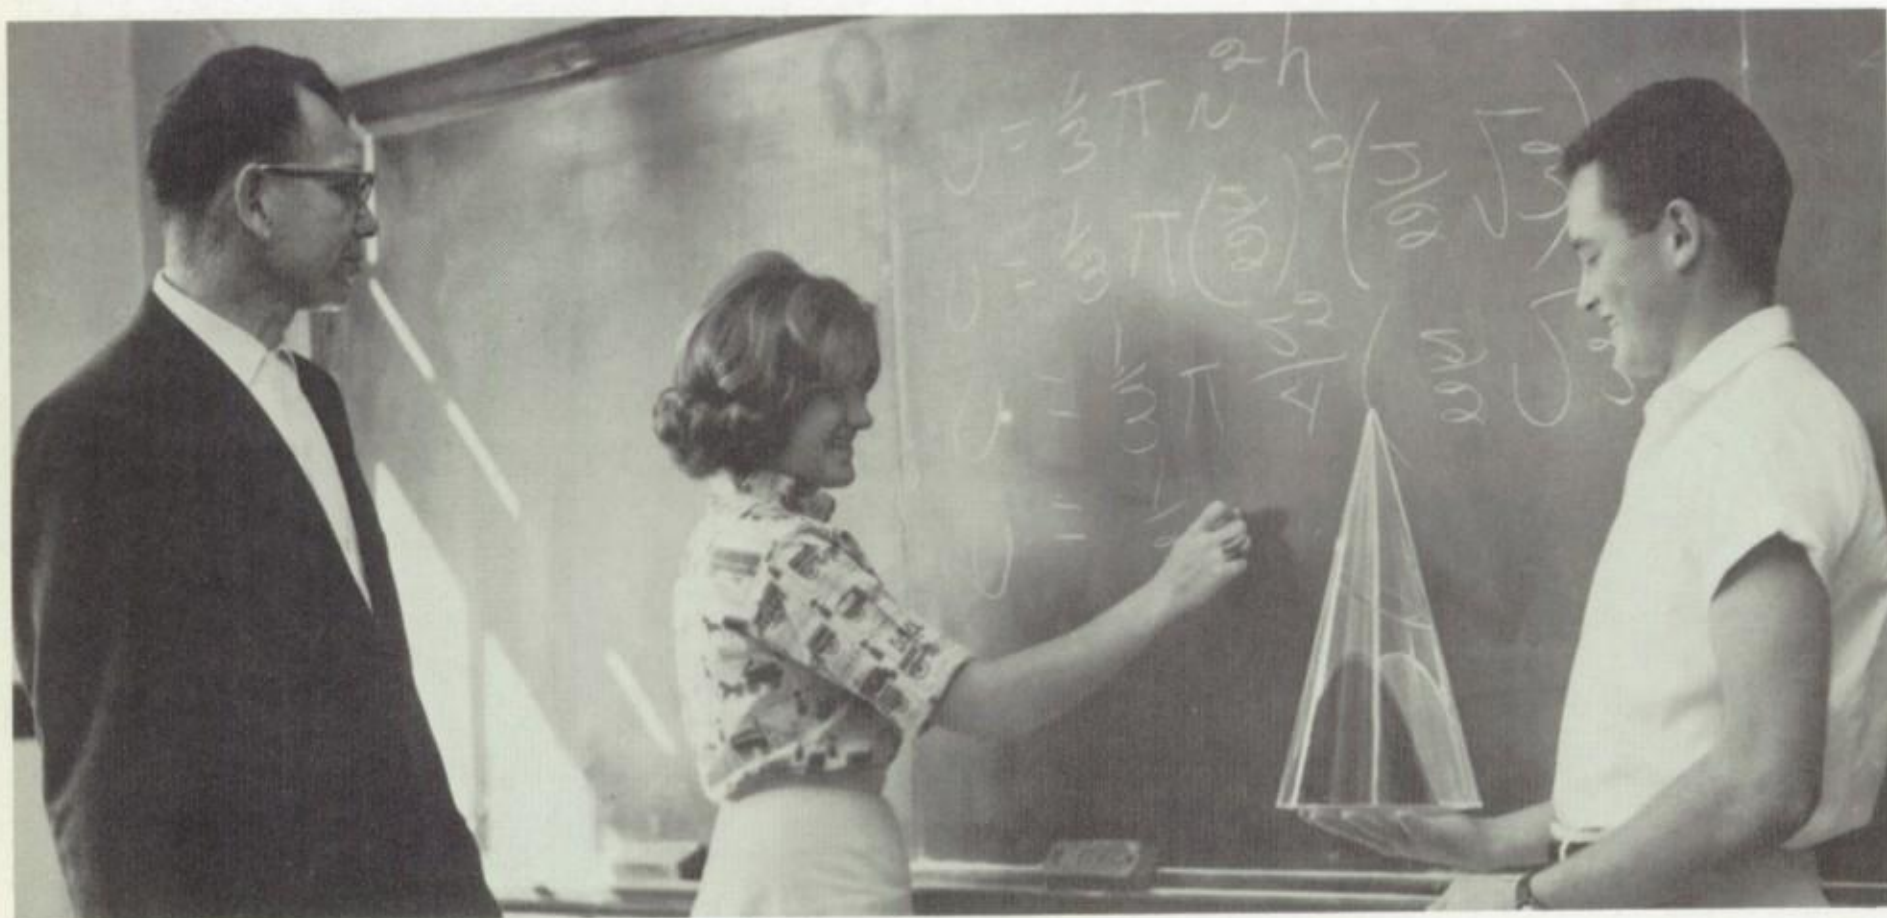

"... and this is where the oxygen is taken to the blood cells," explains Mr. Blackburn to an attentive class.

First year Biology students discover the fascinating and awesome world beneath a microscope.

Math Students Learn to Apply Knowledge

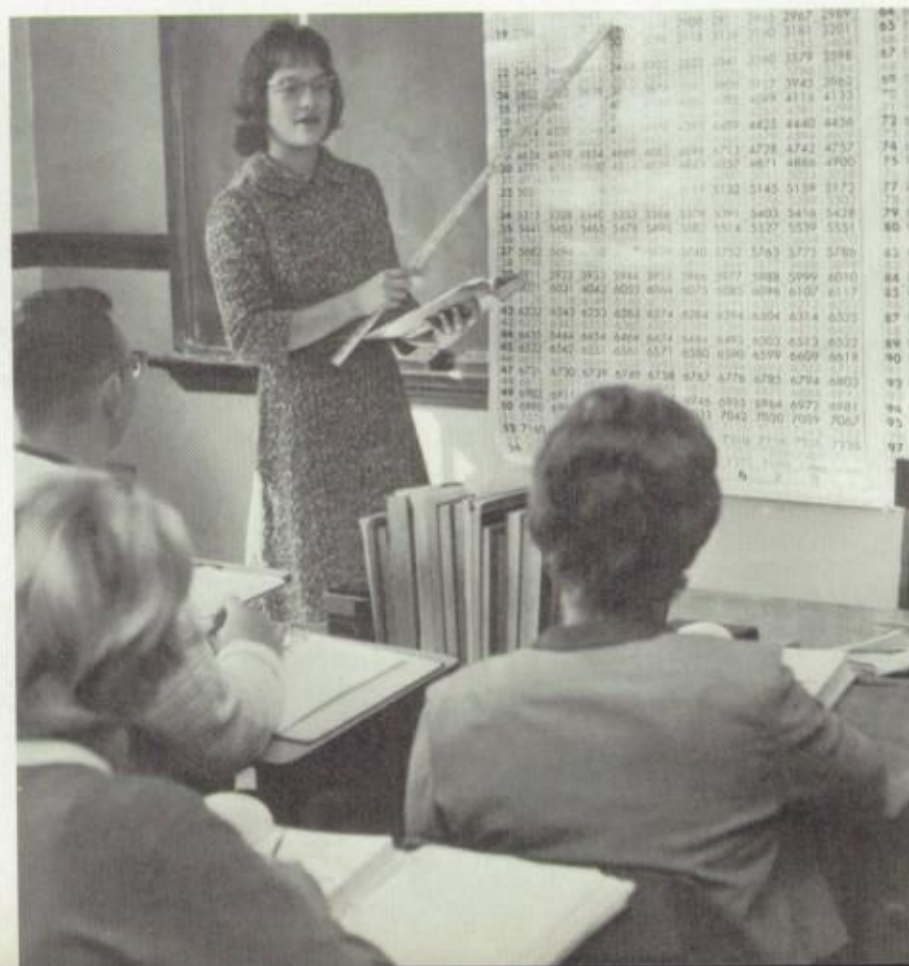

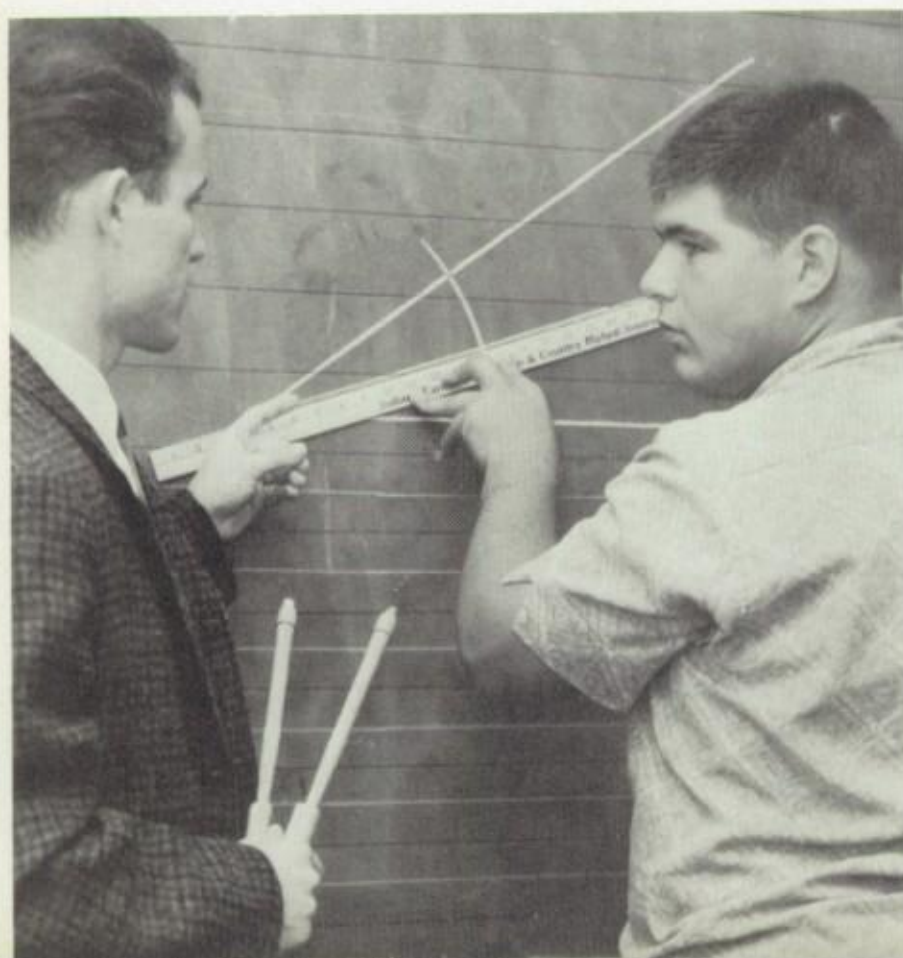

Sandy Waltz demonstrates her ability to find the volume of a cone to Mr. Nichols and Dick Setser.

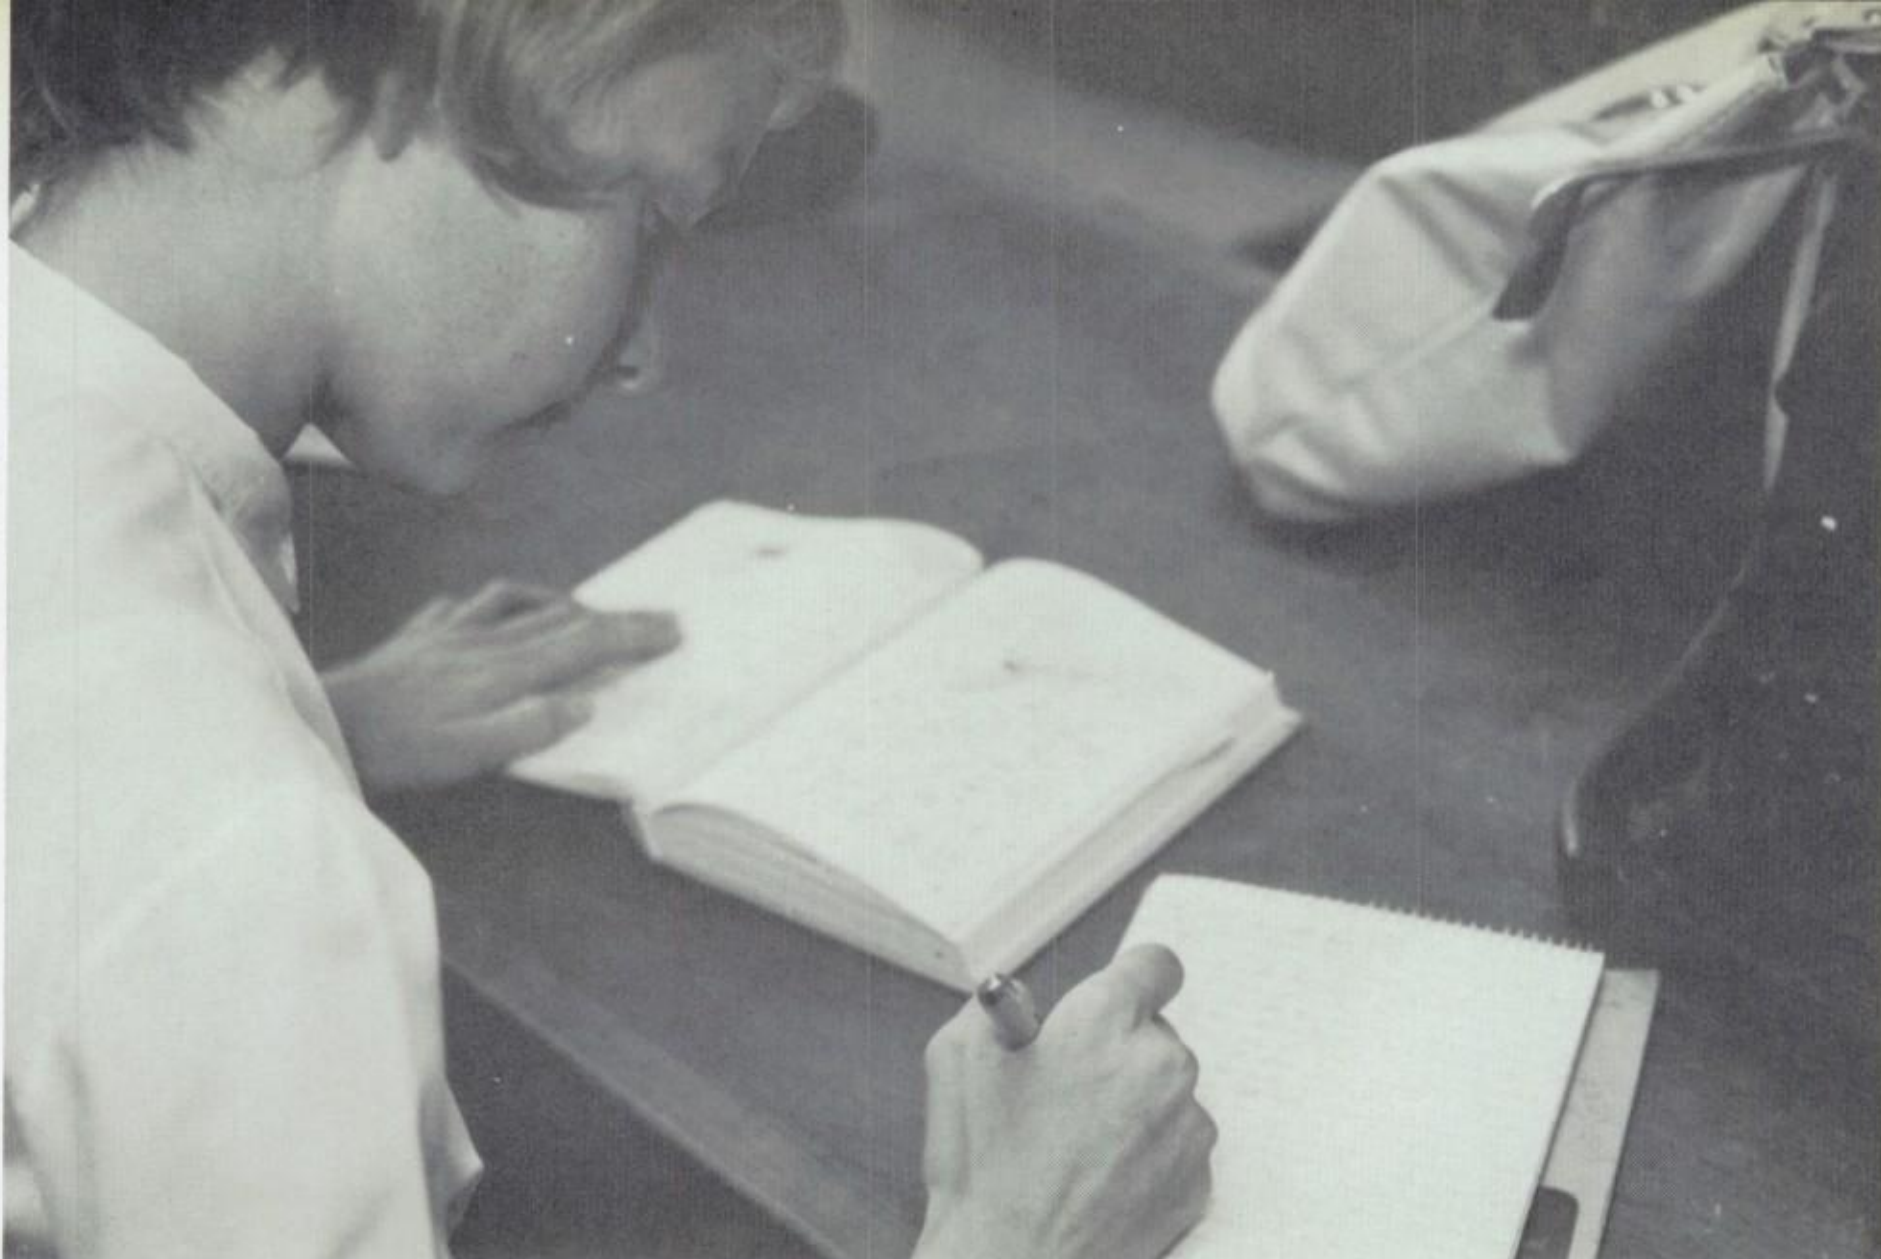

The H.H.S. pupils have the opportunity to enroll in various classes including General Math, Algebra, Advanced Algebra, Plane Geometry, and Senior Math. These courses offer basic knowledge of our number

system and advanced study in additional topics. The Math Department under the supervision of Mr. Nichols, encourages students to apply their knowledge to physical problems and to make use of their reasoning ability.

Mr. Nachtigall teaches Mike Proffit the art of bisecting an angle.

The Advanced Algebra class concentrates on Rachel Hartman's explanation of a logarithm problem.

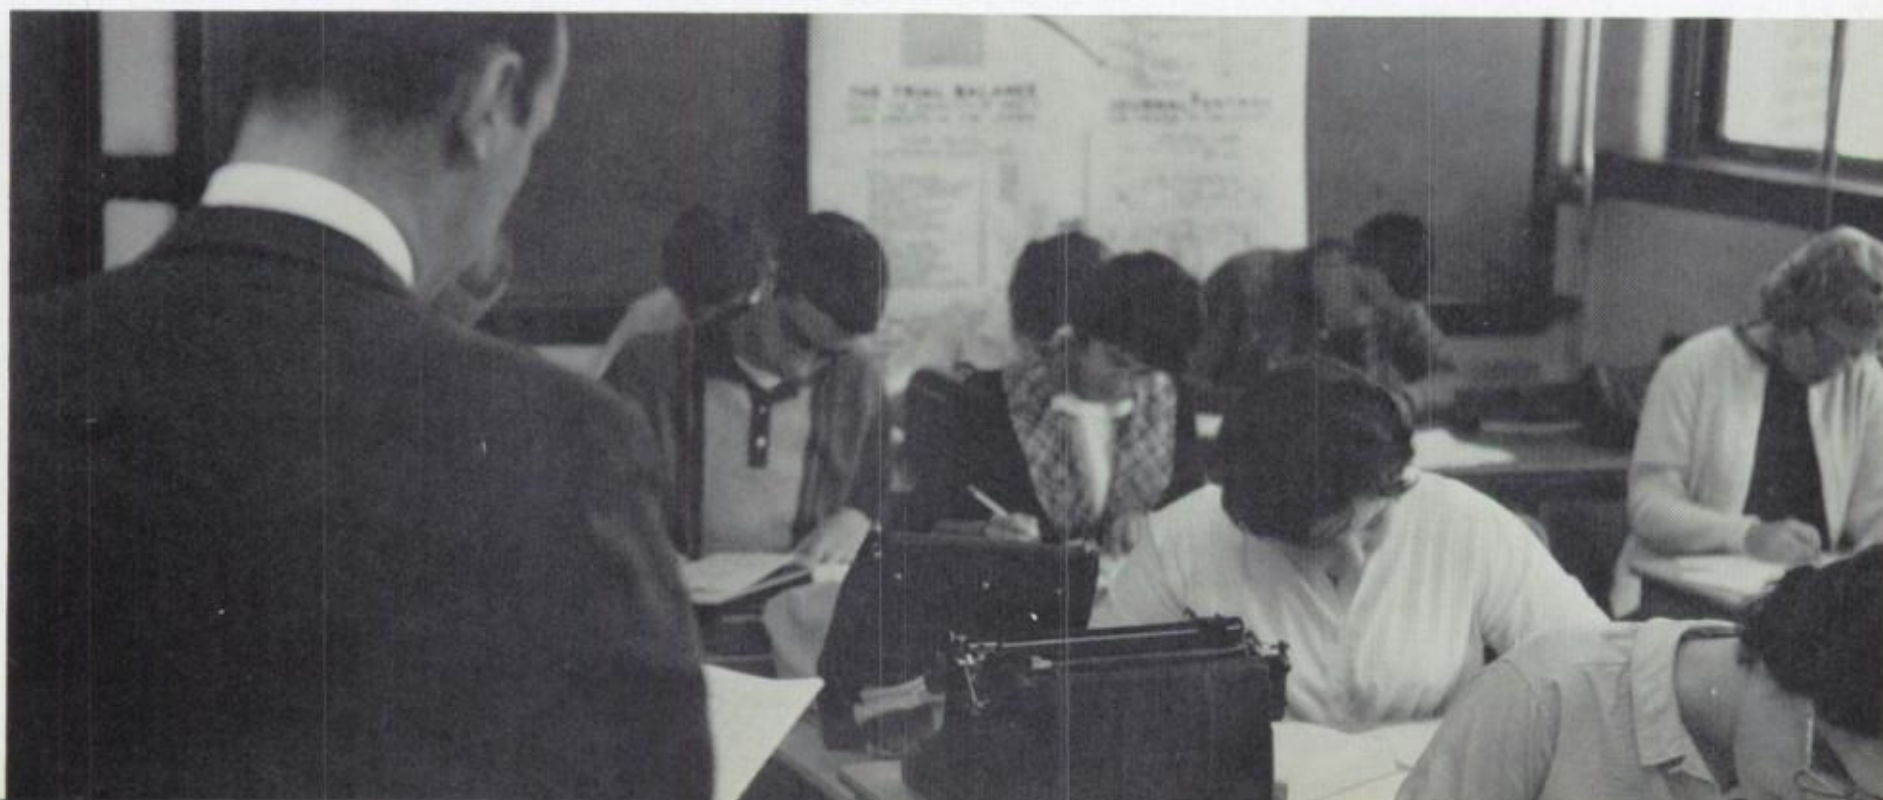

June Davis rapidly transcribes a shorthand assignment.

Youth Prepares to Enter Business World

Numerous business courses at Hagerstown High give an understanding of general and daily business activities along with instruction in business skills. Courses

are offered in general business, bookkeeping, typing, shorthand, and, office machines. Advanced studies in these subjects are available to business majors.

Mr. McMullen leads the class in a bookkeeping exercise.

England and America Exchange Respected Teachers

Mr. Fletcher

Our school has been honored this year. Mr. Fletcher, a social studies major, has brought a touch of England into our classrooms. Mr. Barnhart, a history teacher in our high school for five years, has taken Mr. Fletcher's place in Ewell, Surrey England. This teacher-exchange program is sponsored by various agencies and departments of the British and American governments in the hope of a better understanding between the two peoples. We sincerely hope that others will have this opportunity to experience similar advantages.

The Social Sciences Involve Man

Socialized medicine is cheerfully debated in Economics Class.

Hubert Lakes shows Linda Overby vital locations in the War for Independence.

Social Studies in the examination of man, his past, his social requirements, and his government. The study of his past is covered thoroughly in American History and World History. Economics and psychology courses offered at H.H.S. provide knowledge of man's requirements, both material and emotional. Finally, United States Government is offered to Seniors in order to give them a background in their system of government.

Mr. Blackburn and his psychology class look on as Russ Chard becomes a victim of one of Sandy Waltz's famous arguments.

H.H.S. Possesses

H.H.S. is fortunate in having an excellent choir. It is certain that the choir of the Junior High School will follow the fine example set for them by the High School Choir. Both choirs perform for many special occasions of which there are concerts, convocations, and community groups. In this musical organization, also a credit course, students are encouraged to develop their abilities and further their appreciation of music. These impressive groups are under the direction of Mr. Harold Smith.

The choir is in great voice as it performs for a capacity crowd for the annual Christmas Program.

Impressive Choirs

The High School Choir, consisting of eighty-five members spark many of the impressive ceremonies of Hagerstown. The beautiful robes of purple and gold and the smart suits which comprise the attire of the choir add to the moods of the different occasions. Accompanied by the talented Judy Neel, the choir practices during a dress rehearsal for the upcoming concert.

The Junior High students prepare for their future with the High School choir. They are accompanied by Krista Hollenberg and Kathy Wall.

GOLDEN TIGERS

Finishing a lively march and carrying his sousaphone is Bob Meyers.

"Ooooh . . . it's so loud!!" says a tiny music lover.

The Golden Tiger Marching Band snaps smartly to attention during a rehearsal.

Proudly Presents Tiger Band

The instrumental music department made up of a marching band, concert band, pep band, dance band, and marching twelve supplies music of all kinds for the different activities around the school.

The Marching Golden Tiger Band captures the attention of many spectators at football and basketball games, parade and other civic functions. The Concert Band co-sponsors programs with the choir throughout the school year.

We are proud of the band which represents the high school and of their many accomplishments.

Sue Stratton adjusts the heavy yet beautiful crown-like drum majorette hat.

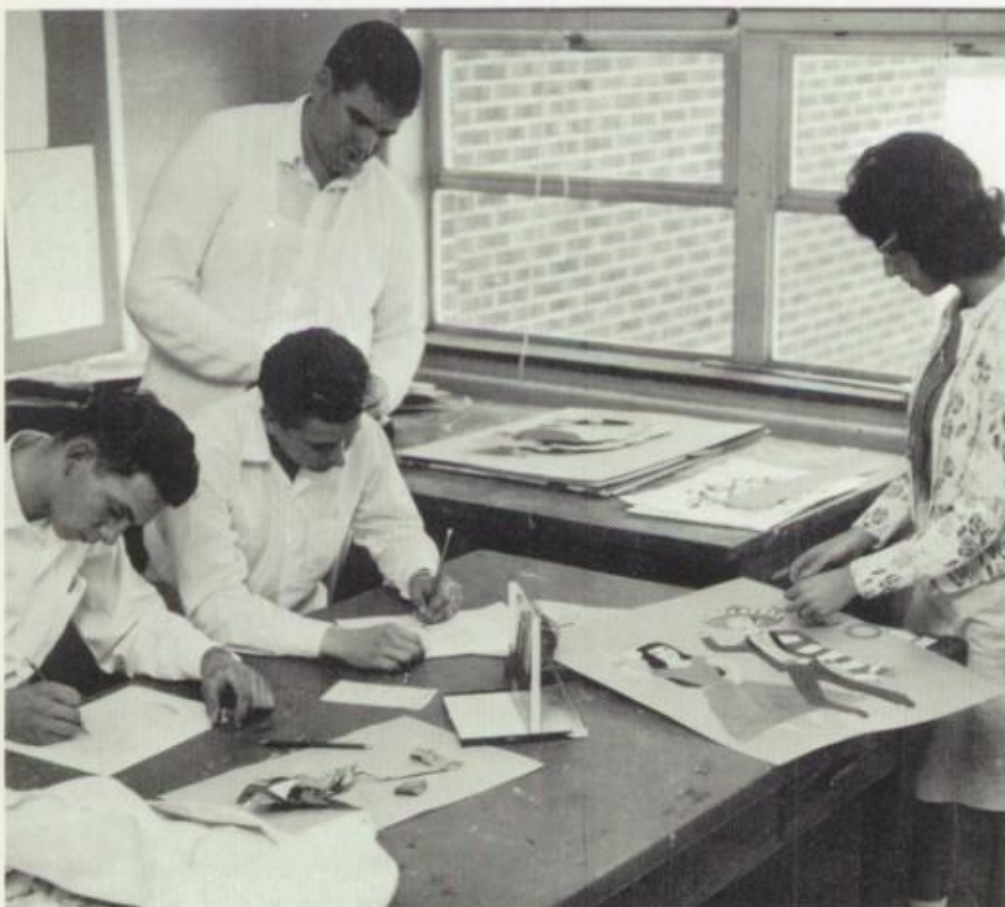

The Cadet Band struts proudly through the streets of Hagerstown during the annual Derby Day Parade.

Dennis Jones watches intently as Mr. Jackson demonstrates his skills with a pair of scissors.

Ronnie Williams receives pointers from Glenn Sullivan and Jim Driscoll while Vicki Shafer completes a travel poster.

Art Students Learn To Create

The art department under the able direction of Mr. Thomas Jackson attempts to give every student a general working knowledge of all art forms. Emphasis is placed on line, color, form, texture, and balance in working on various projects.

The Industrial Arts Teach Skills

H.H.S. offers a wide variety of industrial art courses. These include wood shop, machine shop, blue-print reading, and mechanical drawing. Advanced shop courses are offered to students specializing in industrial arts.

John Overby tests his skills on a practical problem.

Marvin Cole receives expert instruction in blue-print reading from Mr. Sedgwick.

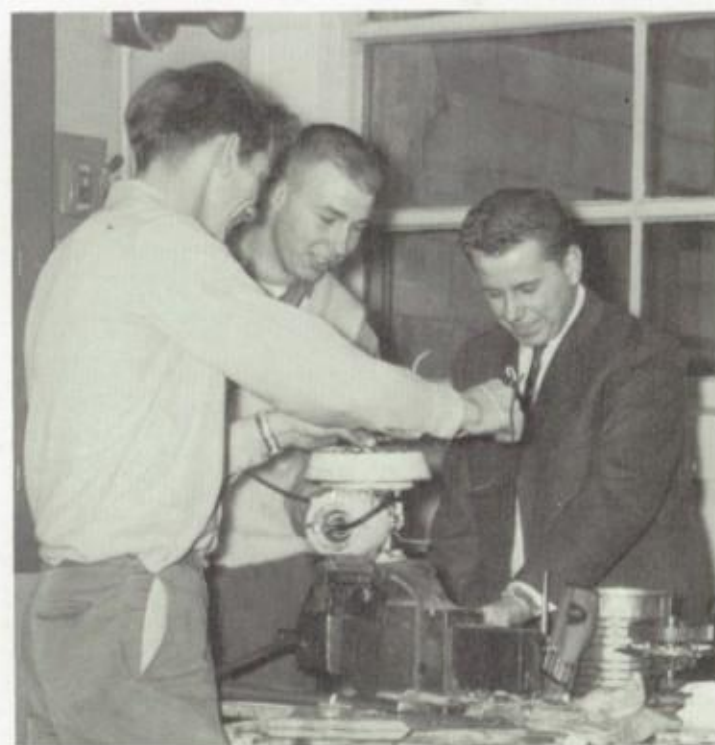

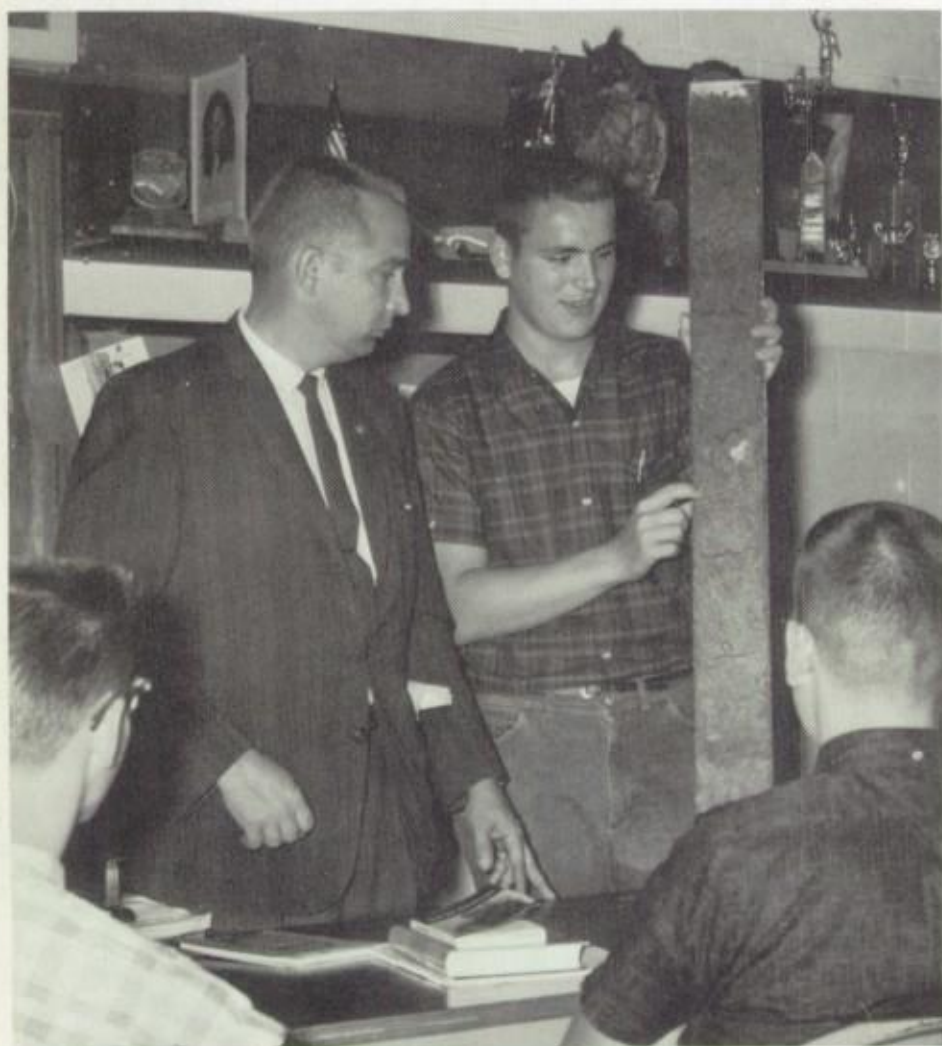

Mr. Helm and Jim Gregory seem to view wood shop as a pleasing subject.

An Excellent Agriculture Course Is Offered

Vocational Agriculture has expanded its program at Hagerstown to better prepare any boy or girl for business in agriculture, Agricultural College, or farming. Students may enroll in vocational agriculture regardless of rural or urban residence. Since forty per cent of the population is involved in some phase of agriculture, it has become necessary for Vocational Agriculture programs to expand their objectives. Hagerstown's agriculture program is supported by the best physical

facilities that a school corporation can offer. A new farm shop has been completed and partially equipped to offer the students many farm mechanic activities. A livestock research laboratory is being completed on the school grounds that will permit any student to learn livestock management practices by doing. In addition, eighty-four acres of crop land give the students an excellent means of trying out improved crop production practices.

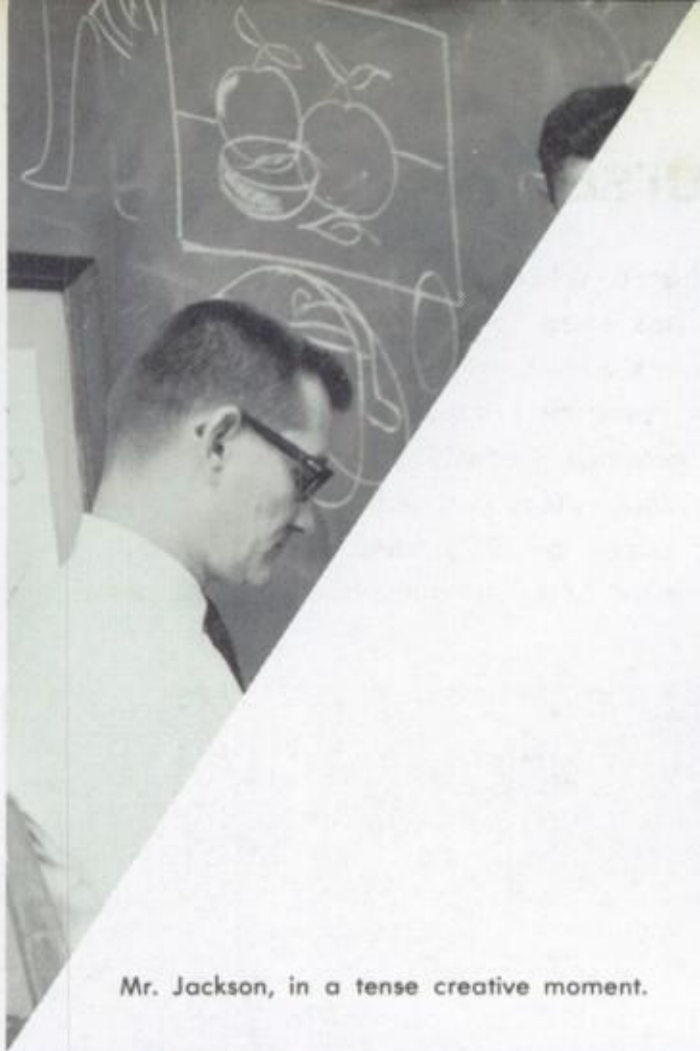

Jim Driscoll, John Heacox, and Glenn Sullivan learn the maintenance of farm equipment.

Mr. Hylton oversees Jim Doerstler as he explains a soil profile.

Henry Davis and his co-workers gain experience in applying their knowledge of farming.

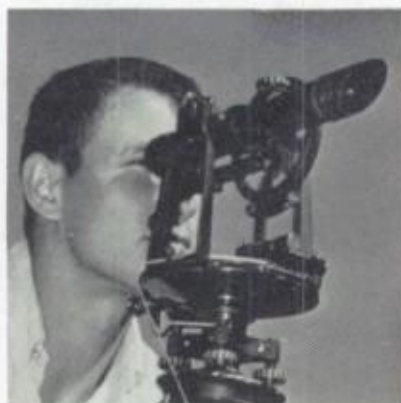

Mr. Jackson, in a tense creative moment.

Home Economics Prepares The Homemakers Of Tomorrow

Home Economics offers a variety of skills which will be advantageous to the young women of tomorrow. Not only are the basic principles of cooking, sewing, and housekeeping taught, but also valuable instruction in personal grooming and conduct, home management, nutrition, interior decorating, care of the ill, child care,

and many other areas. These courses are offered in four stages, varying in complexity. The student may acquire a general knowledge of Home Economics, then advance to a deeper understanding and ability. We believe that Mrs. Gilmore and Mrs. Hawley have done an excellent job of training the high school girl for the future.

Mrs. Gilmore directs Betty Ketring as she practices good hair grooming with Jeannette Campbell.

Donna Smith and Mary Margaret Bowman create a display showing their knowledge of fabrics and design.

Minor Subjects Build Skillful Knowledge

Although a minor subject, physical education plays an important part in its students' school life. These students look forward to it with enthusiasm. Physical fitness plays a vital role in the fulfillment of a well-rounded education as is offered at H. H. S.

Driver's Education instructs future drivers in basic skills and essential safety practices. The need for safety is obvious when one realizes the needless mishaps which

occur on our nation's highways. Driver's Ed. offers instruction which may help to prevent these accidents. Occasionally this course seems baffling, right girls???

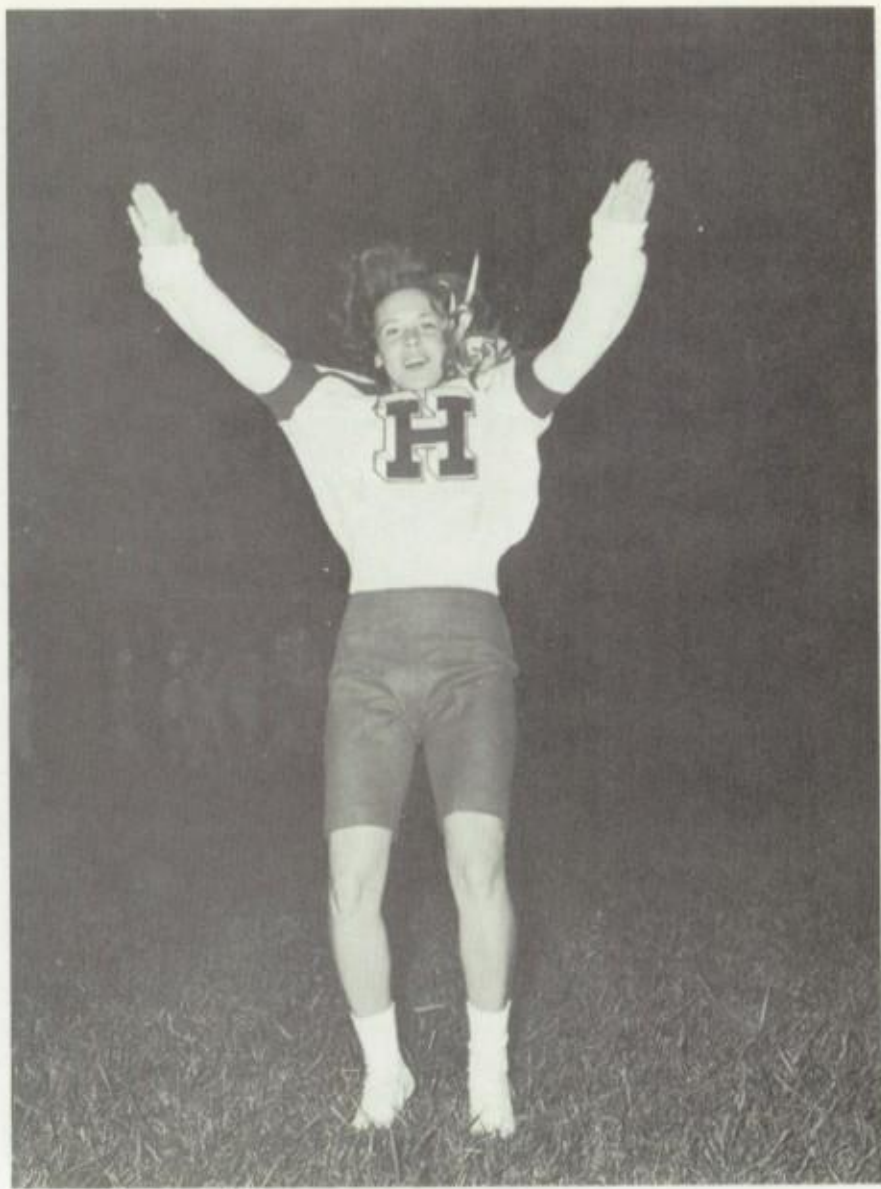

Gateway To The Future With Sports

The boys and girls who participate in sports at H.H.S. acquire attitudes and habits that will help them in the future. The athletic events also establish and sharpen a fine school spirit. With the able assistance of our excellent coaching staff H.H.S. has achieved a magnificent record in the previous 2 years that we have been a member of the Mississinewa Valley Conference. With a brilliant past in sports we look through the GATEWAY TO THE FUTURE to even greater accomplishments.

Cheerblocks Spur

Girls' block follows Kitten Team Cheerleaders in a maneuver to music.

The Girls' Cheerblock is organized each year for the basketball season. Its purpose is to give high school girls fun and pleasure while boosting the Tiger Team on to victory. Under the guidance and supervision of Mrs. Elwell and the four varsity cheerleaders, the girls do formations and letters to yells and provide an annual Christmas program for the enjoyment of the spectators.

Tiger Team to Victory

Clad in white shirts and weird ties, this association of young men cheer our team toward winning that game. This is the Boys' Cheerblock sponsored by the Hi-Y and Mr. Helm. Jim Bavender and David Reed the elected cheerleaders, and the block chant yells to aid our team. The cheerblock's evident purpose is to inspire the girls to more pep and "steam" and they do succeed.

Boys express delight at the Tigers' winning basket.

Track and Field Events Are Exciting

Marc Marlatt receives a medal for a victorious run in the Jaycee Relay.

One of the high lights of the school's athletic program is the coming of the track season. Our track squad, led by Coach Suminski, is only one of the many successful sports at H.H.S. The boys represent our school admirably in all track meets by winning their share of the medals, ribbons and trophies. The peak of the season is the Jaycee Relay in which a medal is awarded to each individual winner and a trophy is awarded to the winning school.

THE 1963 TRACK TEAM ARE: Robert Bertram, Dan Davis, Joe Warvel, Charles Howell, John Overby, Steve Stone, Larry Hurst, Bobby Gwin. SECOND ROW: Marvin Cole, Randy Gwin, Gayle Forrest, Ted

Montgomery, Charles Shafer, David Day, Steve Harrison. THIRD ROW: Dan Reece, Marc Marlatt, John Cleghorn, Jim Brown, Ron Brown, Bob Lowe, Dan Pegg.

Senior Russ Chard fights hard to win his match.

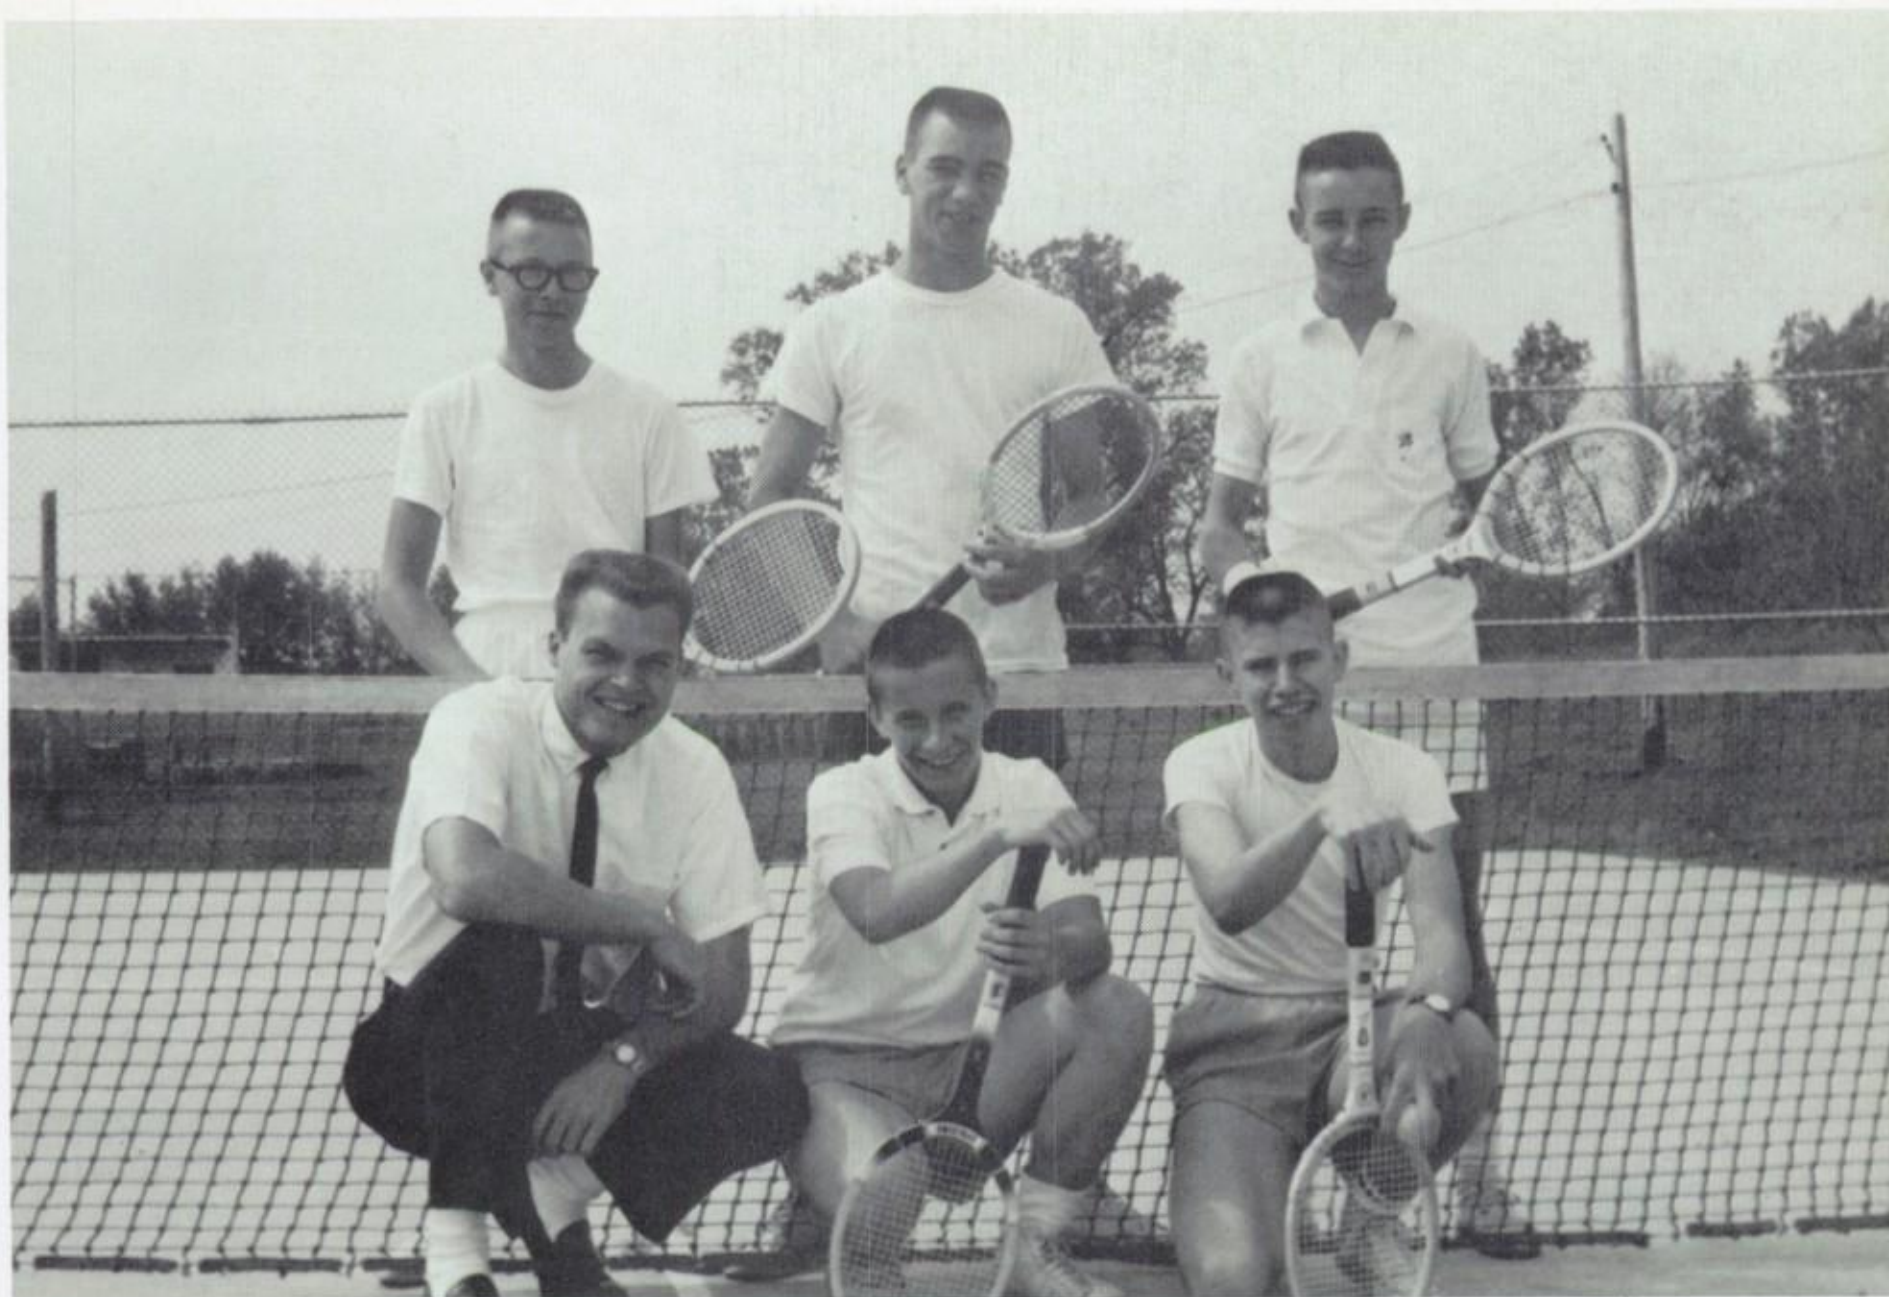

Although this was Hagerstown's first season in wrestling, the interest of the community has increased. The Wrestling squad, headed by Coach Suminski, lost all of its matches. We started with a new team, new mats, and a new spirit for the boys.

They work to earn points for awards given at the end of the year.

Gateway to the Future with Activities

Activities in the high school create interest in new ideas, in ourselves, and in others. They help to broaden our education by teaching us the social aspects of life. Our high school activities offer us a chance to learn to know our fellow students better and to understand their views. They also provide a means to become better acquainted with the faculty. Activities are very valuable to us not only in a recreational sense but in an educational sense. Activities take us one step further up the path toward our GATEWAY TO THE FUTURE.

President, Rick Federico conducts a student council meeting of class representatives.

Council Strives for Better Relations

The Student Council is made up of two representatives from each class. They are sponsored by Mr. Allmon, the guidance director. The Council's main purpose is to bring the students and administration closer together. The method of class officer elections and many worthwhile programs presented for the students have been provided by the Student Council. Although the Student Council has not been tremendously active in the past, all students are voicing their hopes that it will help to better the student-faculty relationships in the future.

Hi-Y Builds Character

Clean speech, clean sports, clean scholarship, and clean living is an excellent motto to live by. What better goal could an ambitious group of boys set their minds on?

A good goal for everyone to achieve is to create, maintain, and extend, throughout the home, school, and community, high standards of Christian character. These ideals are joyfully extended throughout the world by smiling young faces, all members, through their school, of the inter-national Y.M.C.A.

Each school year, the H-Y performs such duties as maintaining a schedule board of the Tiger sports calendar in front of the gym, a basketball roster board for each ball game, a track records, a hat and coat check for the Tiger basketball fans, trash barrels around the campus, and a yearly world clothing drive for needy American families. The adult lives of Hi-Y members will be enhanced by the training they receive now.

Each year at Christmas, the Y-Teen girls enjoy an evening of decorating the doors and of hanging the greens.

Decorating their door for the annual "hanging of the greens" is Sheila Miller and Sheryl Wilson.

A Y-Teen is a Wise Teen

The purpose of Y-Teens is to help its members "to grow as people; to grow in friendship with people of all races, religions, and nationalities; and to grow in the knowledge and love of God." The Club achieves these goals through projects designed to prepare members for their future role as Christian Women.

Organizations Enjoy Entertaining

The Art Club was organized for H.H.S. students who are interested in any field of art. Art Club "fulfills and maintains our American Heritage of creative thinking." In this sense as in many others Art Club is a most important organization. Under the direction of Mr. Jackson, this club sponsored the second place float in the annual homecoming festivities and a Hootenanny.

Junior Red Cross under the guidance of Mrs. Hagen has brought joy to many people at home and abroad. J.R.C. as it is commonly known, sponsors an annual variety show for the entertainment of the citizens of Hagerstown and the outlying communities. The profit from this and other strictly donation activities is sent to Chul Soo, the Hagerstown chapter's Korean child. The thankful letters from this young boy prove this organization worthwhile.

FIRST ROW: Mike Wieseke, Steve Stone, Greg LaMar, Barb Baer, Susie Detweiler, Linda Overby, Sherry York, Nancy Williams, John Ellis, Dean Fallis. SECOND ROW: Josanna Derbyshire, Merleen Cole, Sue Stratton, Cynthia Detweiler, Cindy Taber, Linda May, Becky Stone, Janie Welliver,

F.H.A. Members Learn Homemaking Skills

The F.H.A. organization prepares high school girls to become the Future Homemakers of America. Under the guidance of Mrs. Gilmore, the girls have done many projects in order to further their education. Each year, the girls who are F.H.A. members go to Indianapolis to the Home Show which furnishes many worthwhile ideas for the art of homemaking.

FIRST ROW: Mrs. Gilmore, Dixie Woodward, Mary Margaret Bowmen, Davena Woolard, Debbie Drake, Janice Asche, Linda LaMar, Karen Gray, Shirley Werking, Nancy Dennis. SECOND ROW: Dianne Gillespie, Jewel Pope, Nora Wyne, Virginia Taylor, Julia Werking, Judy Smith, Susie Hoggatt, Joanell Isaacs, Karen Bane, Sharon Thalls. F.F.A. Chapter Awarded

The Future Farmers of America, or commonly called F.F.A., is the national organization of, by, and for boys studying vocational agriculture in public secondary schools under the provisions of the National Vocational Education Acts.

The F.F.A. is an intra-curricular activity having its origin and roots in a definite part of the school curriculum—vocational agriculture. Among other things, members learn through active participation how to conduct and take part in a public meeting; to solve their own problems; to finance themselves; and to assume civic responsibility.

The Future Farmers of America exist today because of a cooperative spirit and a desire on the part of the boys interested in agricultural business to have a national organization of their own in which they may secure practical business experiences, act as their own instructors, and enjoy the fellowship of one another. Improved agriculture, better local communities, a more satisfying home life, and more valuable citizens are emerging as a result of the boys' experiences.

Randy Gwin takes care of his sow for his F.F.A. project.

FIFTH ROW: Roger Lewis, Bob Hightower, Ronnie Robertson, Larry Lester, Dick Mosier, Jack Colvin, Bill Gray, Lynn Hilbert, Steve Coffman, Paul Sitzler, George Gettinger, Keith Kirtman, Paul Webb, Fred Gamber.

Gold Emblem Twice

These nine F.F.A. members demonstrate their award winning ability of conducting Parliamentary Procedure. The members of this team are John Pike at the podium; and moving around the table—Randy Gwin, Richard Moore, Max Smith, Jim Doerstler, Bobby Gwin, Dion Ammerman. Seated: Steve Davis, Rick Rodenburg.

For the past two years, the H.H.S. F.F.A. organization has brought top honors to the school in the form of the Gold Emblem Award. The Hagerstown Chapter is the first in the state of Indiana to receive this award for two consecutive years. Pointing to these most prized possessions are Robbie Allen, Dion Ammerman, Don Lamb, Randy Gwin, John Pike, Jim Bailey, and Max Smith.

Gateway to the Future with People

The student body at Hagerstown High School is composed of many names and faces. Some are old and some are new, but each one affects the composition of the school.

Let us not forget the administration which guides our lives now and leaves a great memory for the future. Some are the familiar faces that have been seen in years past, while others are new to the classrooms.

Each class at H.H.S. brings new talents and fascinating projects. The gaining of recognition is a goal for the individual, but one of the greatest honors is to be called a Senior. This is the triumphant year for all students. At this level the student is at the end of his second path of learning and one step closer to his GATEWAY TO THE FUTURE.

Administration Aids

Clarence Carlson
Superintendent

Mr. Carlson, the Superintendent, has helped the school function properly. In co-operation with the School Board; Mildred Bond, Horace Smith, John Bond, Earl Stackhouse, Charles Howell, Bob Myers, and Voyle Allen, he coordinates all future school policies, plans, and functions.

Eugene Stone is a familiar person to all H.H.S. students as principal. Inhabiting "The Office" he aids and reprimands the pupils. He gains the high regards of all by his fair and just ways of dealing with problems.

Working with Mr. Stone is Frances Workman, secretary to the principal. Her friendly smile and quick wit create a cheerful atmosphere at the high school.

Miss Helen Smith is private secretary to Superintendent Carlson. Although unseen by many pupils, her work carries her deep into the affairs of the corporation and into the lives of the student.

Mariellen Stewart is a quite familiar personality as the manager of the bookstore and financial secretary of the corporation.

Virginia King is the bookkeeper of the Nettle Creek School Corporation.
